Mayo Clinic Lecture Series

We are very excited to have students from around the world to join our series of lectures. This is a great way to connect and learn about Internal Medicine and a Hospital Medicine as well.

Title of the lecture: "Inpatient Medicine"

It's a great topic for the students, upcoming residents and everybody who is interested in direct patient care in the hospital setting.

We will have Dr Newman and Dr Keller to present some topics after which we will have a time for questions and survey for the participants afterwards to have an ideas for the upcoming lectures.
